

OUR SOCIAL VALUE CHARTER

NHS Arden & GEM is committed to embedding social value across all that we do. To that end, we have determined what our social value principles will be. These principles will help us to deliver on our overarching social value ambition, which we defined as:

- Increasing the benefits that our employees and customers receive from a social, economic and environmental perspective
- Being a growth enabler with a focus on reducing health inequalities
- Growing capabilities within our customers across our organisation to deliver improved social value.

To meet these ambitions, NHS Arden & GEM will:

- Grow our skills and expertise in these areas to provide our customers with the best support options so they too can grow and develop
- Commit to being net carbon zero for scopes 1 and 2 by 2040 and supporting our customers to do the same
- Ensure our supply chain demonstrates their commitment to social value through implementing NHS procurement requirements
- Work with partners to grow the footprint of social value to maximise impacts for customers.
